

the old high tech is the new ...

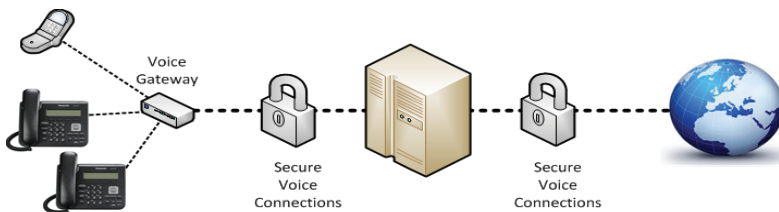

Middle Tech

a Consortium of Technical Professionals
Telephone Systems

Middle Tech supports planning, configuration, installation and sales of Panasonic, Cisco, VOIP systems and Avaya PBX switches for maintenance and configuration.

Technical Maintenance Services

This includes all day to day hardware and infrastructure maintenance, moves, adds and changes. It also includes system planning and implementation of wiring or cable plant for the telephone system or telephone access provider.

Documentation

All systems require documentation to provide the owners with service continuity between providers. As built drawings,, documentation, Reports and Statements of Work are all provided for new and existing networks if requested.

Rates

All services are quoted on a case by case basis often after an on-site visit to determine site particulars and will contain a Statement of Work to detail the objectives quoted.

- All travel included in GTA (Mississauga to Pickering to Barrie.
- All Projects may be fixed price quoted up front.
- All Materials or tool rentals extra unless specifically noted in the quotation.
